

The Beverly Hills Carmel

Kahan Family Acquires Rehabilitation Centre of Beverly Hills; Announces New Management Team.

12/06/ 2004

BUSINESS WIRE

LOS ANGELES -- Owners, Whose Holdings Include Nearby Beverly Hills Carmel Assisted Living Properties, Bring aboard Skilled Healthcare and New Executive Director to Manage Daily Operations

The Kahan Family, long-time developers of senior housing properties in Southern California, has acquired full interest in the Rehabilitation Centre of Beverly Hills (Centre), a 150-bed facility that is located on San Vicente Boulevard just south of Cedars-Sinai Medical Center. The Kahan Family, who previously owned a 50% interest in the Centre, also hired Skilled Healthcare, LLC and a new executive director, Eldon Teper, to manage the facility.

In operation since 1997, the Centre provides short term post-acute rehabilitation programs and a vast array of other skilled nursing services. "The Centre is an important asset to the community and provides critical services for patients and their families," said Ken Kahan. The Kahan Family also own and operate two assisted living developments -- Beverly Hills Carmel North and South -- on Burton Way just blocks west of the Centre.

Since acquiring 100% control of the Centre, the Kahan Family has hired Skilled Healthcare, LLC, a leading provider of services supporting a full continuum of post-acute care services, and brings a strategic emphasis on sub-acute specialty medical care to the Centre. Skilled Healthcare affiliated companies currently operate 51 skilled nursing facilities and five assisted living facilities serving approximately 6,000 residents in California, Texas and Nevada.

The Centre also recruited respected health care veteran Eldon Teper as executive director of the facility. Teper, who has 27 years experience in the industry, has received statewide recognition for managing high quality nursing and rehabilitation facilities. Teper holds a master's degree in Gerontology from USC and is also a registered nurse. "Eldon brings unmatched experience to the Centre, and will make sure patients receive the highest level of care in the industry today," Kahan said.

The Centre is located at 580 San Vicente Boulevard. For more information on the Centre and the services it provides, please call 323-782-1500.
